25X1

1. Work is still in progress at Budapest-Ferencváros marshaling yard. The Debrecen, Pusztaszabolcs, Hatvan and Püzesabony railway stations are being greatly extended.
2. The new Paks-Bátaszék line will be 26 km. long and will join the Pusztaszabolcs-Bátaszék line at Tolna-Ménz railroad station. The present Bátaszék-Mohács line which is 33 km. long is to be lengthened.
3. Double tracking along the Székesfehérvár - Budapest line has almost reached Tárnok.¹
4. Electrically operated points are to be installed at all stations.
5. Martonvásár station has been enlarged and a single track has been added on each side of the main one. The new tracks are 130 axles in length. (See Annex B).
6. Electrification of the railway line to Miskolc has been completed as far as Pécél. Standards for the overhead wires have been erected as far as Hatvan.
7. Automatic safety devices for track sections are complete as far as Tatabánya Felső and Pestszentlőrinc. Similar devices have been put into operation between Kőbánya and Kispeszt. The Budapest - Cegléd - Záhony line is to be equipped with safety devices, but the work will only be carried as far as Szolnok to begin with.²

25X1

Comments:

1. Latest reports indicate that double tracking between Székesfehérvár and Budapest has been completed as far as Martonvásár.
2. When the Budapest - Cegléd - Záhony line is equipped with automatic safety devices, MAV intends to increase the volume of traffic on this route.

Annexes: (A) Construction Work on the Hungarian Railroads as Depicted in this Report.

(B) Martonvásár Station.
